

Armor Dynamics Ballistic Sun Visor is an industry first product that provides law enforcement officers NIJ level IIIA protection. A full set of visors can protect officers from bullets via the windshield or side windows.

## Ballistic Sun Visor

The Ballistic Visor is a cost-effective, lightweight attachment to a vehicle's existing sun visor that has the ability to defend against small arms threats. The visor can be easily and quickly deployed, or transferred to a different vehicle.

- Provides front or side window protection.
- Easy to install; can be removed and used as a hand shield.
- Five-year ballistic warranty.
- Will not interfere with vehicle occupants visibility.

## FEATURES

NIJ level IIIA

- Defeats: small arms threats
- Weight: 1.8 lbs
- Material: soft and rigid composites.
